

Customer focused. Built on values.

June 6, 2013

Grunau's Lean Construction culture will be highlighted during a presentation given by George Zettel of Turner Construction Company at the 44th Annual National Association of Minority Contractors (NAMC) National Conference. The conference is being held June 19-21, 2013, at the Hyatt Regency at Century Plaza in Los Angeles, CA. The theme for the 2013 National Conference is "A New Direction - New Opportunities" which will highlight Transportation, Healthcare and Energy Construction. Using Lean Construction practices is a perfect way to provide new opportunities in construction.

Specific workshop details can be seen at:
